SUMMARY

I'm a passionate, hard-working, and adaptive software engineer with a passion for developing and combining technology with multi-disciplinary knowledge to solve an organizational problem. I am a graduate student at Universitas Padjadjaran with a bachelor's in computer science. As a Software Engineer, I am also proficient in several programming languages such as Javascript with React.JS framework. Confident communicator, strategic thinker, and innovative creator to develop software that is customized to meet organizational needs.
